

Project	Inntal Highway A14 Tunnel Roppen, 2nd tube
Client	Austrian Federal Highway Corporation [ASFINAG]
Consulting Services	2005-2011 project management, supervision, geotechnical construction
Total Cost	US \$ 151.9 million
Technical Data	tunnel length: 5,100 m

Description	<p>Increasing traffic volume requires a second tube for this section of the highway. The new second tube shall be constructed in drift-and-blast with NATM while the traffic is led through the first tube. After the completion of the new tube and his opening for the traffic, the twenty-year-old first tube will be renewed.</p>
